

of the 95 terminals because Douglas County would have to have three terminals, the cost would be \$393,200, and subsequent years would be \$376,200. Of course, knowing that this is an excessive amount of money to be spent by the Department of Roads, I am introducing this amendment to LB 694 which will help in the administration of the changes made by this bill. It deals effectively with problems in cost in determining who has not had a moving violation in four years previous to the expiration of one's license. Under this amendment, those who have not had a moving violation in the last four years may apply to the Department of Motor Vehicles and get an abstract of their driving record which they can then present to the examiner and would then not have to take the written exam. Those who have had no moving violation from the date of his or her operator's license was last issued and want to avoid taking the written test, may apply for and receive an abstract at the cost of \$1.00 of his or her driving record not more than 95 days prior to the expiration date of the license. This allows those waiting to renew their license to get the abstract prior to their earliest day which one is able to renew their operator's license and that is 90 days prior to the expiration of the date of their license. Since it costs \$1.00 to get an abstract, this may well be a source of extra revenue for the state because it will not cost that much to send out the abstract to the individual requesting it. Those who have had a moving violation no doubt will not ask for that abstract knowing that they will have to take the test and that they have had a moving violation within the four year period. So that will cut down a lot of work and even with the terminals or using the telephone calling in and asking for any moving violations Douglas County probably wouldn't have a problem, but they would out in the counties and, therefore, I ask for the adoption of this amendment.

SPEAKER NICHOL: Senator Beyer, I assume you did not wish to speak on this amendment. Senator Sieck, do you wish to speak to the Labeled amendment? Senator Kahle, did you wish to speak to the Labeled amendment?

SENATOR KAHLE: Mr. President, just to comment. I think this just shows what kind of a mess we are going to get into
